CALL FOR PAPERS

The 73rd Annual Environmental Health Australia (Queensland) Incorporated State Conference will be hosted by Rockhampton Regional Council and held from 20 – 23 October 2013, with a Noise Management Course on 24 and 25 October 2013.

This year the theme, **'Environmental Health – Challenging Times'** will bring together presenters from a variety of disciplines across the broader Environmental Health profession to share their expertise and understanding with the Environmental Health community.

The aim of the conference is to explore the changes that need to be made to meet, eliminate or minimise the negative impacts on the environmental health of our communities. It will be an important opportunity for Environmental Health professionals, whether from a multiplicity of roles or a specialist role, to extend their skills and knowledge into action for results.

The success of the conference relies on a contribution of papers, and therefore, the conference organising committee invites you to submit abstracts based on the key issues identified below.

KEY ISSUES

The aim of the conference is to invoke thought stimulating discussion and papers should reflect this request. Papers should also be within the conference theme - 'Environmental Health – Challenging Times'

Improving Environmental Health Practice
